

Report- Vidyanjali Project

In continuation to the volunteer services being provided under the Vidyanjali project (A Govt. of India initiative), the Atal Tinkering Lab (ATL) at APS Jammu Cantt hosted a visit of students of GMS Kotha Bhour on 24-10-2024. The program was aimed at fostering scientific curiosity and innovation among young minds. Various activities were conducted in which students had hands-on experience such as Electricity Generation using Piezoelectric Plate, Blinking LED lights using the LED circuit, 3D designing with Tinker-cad Software and Ultrasonic Sensor Demonstration with buzzer sounds. To and fro travelling services were provided to the students for coming to APS Jammu Cantt. Refreshment was also provided to the students and teachers of GMS Kotha Bhour. The students of Govt. school had a wonderful time experiencing Atal Tinkering Lab of APS Jammu Cantt and wished for more frequent visits to the ATL lab.
