ARTIFICIAL INTELLIGENCE MODEL COMPETITION

On 9 October,2023, CSIR-Indian Institute of Integrative Medicine organised a competition on Artificial Intelligence Model Presentation. Our school participated in the competition among various schools of Jammu division. The theme of the competition was ' AI Transformations in our World'. The event was build on the knowledge and insights gained from the field of Artificial Intelligence. Malkeet Singh, Lovepreet Singh, Tirupati Reddy and Nitin Shan under the guidance of Mrs .Pooja Kaul TGT Computers presented the models on RFID Lock System and UNO Radar. Our students Malkeet Singh and Lovepreet Singh have won third prize for UNO Radar presentation. It was an exclusive chance for the students to work collaboratively with the peers and create models that showcase how AI is making a positive impact on various aspects of our lives. It was a wonderful experience for our school students in which they learnt an effective way of harnessing the power of AI in driving a constructive change.
