

CELEBRATING DIVERSITY

On 1 Dec 2022 our school participated in an awareness programme on World Disability Day with the theme 'Celebrating Diversity' under Hubs of Learning at APS Damana. Around five schools participated in this event. Students of different schools through their role plays, nukad natak and dances gave a message to everyone that persons with disability should not be discouraged rather they should be encouraged in each and every field of society. Mr Pramod Srivastav, President Sahodaya was the Chief Guest. Principals and Vice Principals of participating schools were also the part of this event. The Chief Guest appreciated the performance of our students and addressed the students with disability as students with different abilities. All the participants performed very well with full zeal and enthusiasm. All students of our school received Certificate of Appreciation for their energetic performance on "Awareness on Hearing Impairment" skit/play in which a Hearing Impaired student of our school also performed actively. Our Vice Principal Ms Manmeet Kour was Guest of Honour and she was presented with a memento.
