

Agriculture Education Fair Organized by SKAUST Jammu

On 29th August 2024, Sher-e-Kashmir University of Agricultural Sciences and Technology (SKAUST) Jammu celebrated its 25th anniversary by organizing an Agriculture Education Fair aimed at providing firsthand experience of the educational environment to students from the schools of Satwari vicinity, particularly those in Grades XI and XII. The event featured a panel discussion where university professors provided detailed insights into the various courses and facilities available at the Chatha and R.S. Pura campuses. This was followed by a university exhibition showcasing research projects and the latest advancements in agricultural technology. The fair offered students an opportunity to engage directly with university scholars, address their queries and explore diverse educational and career pathways in agriculture. Students later visited the university campuses and collecting brochures for further reference. Overall, the fair served as a comprehensive platform for the students to explore and consider their future in the field of agriculture.
