

“Community Service Outreach Program”

Report: English Language Learning

On January 30, 2025, fifteen students from Govt. Middle School Kotha Bhour visited the English Language Lab at Army Public School, Jammu Cantt, as part of the **AWES Community Outreach Program**. The initiative aimed to provide these students with a unique and enriching English language learning experience. The session began with a brief introduction to the English Language Lab, highlighting its objectives and the diverse resources it offered such as interactive software for grammar, audiovisual aids and vocabulary building exercises. Students from APS Jammu Cantt demonstrated the use of these tools under the guidance of Ms. Taruneet Kaur. In a spirit of collaboration, APS students helped their peers from Kotha Bhour navigate the activities. The day concluded with a storytelling session, enhancing communication skills and fostering a passion for language. The visit was a valuable experience, promoting not only academic learning but also empathy and connection between students from different backgrounds, laying the groundwork for future collaborations.
