

“Community Service Outreach Program”

Report : Session on Disaster Management

The Interact Club of APS Jammu Cantt under the ‘Community Service Outreach Program’ hosted a successful session on ‘Disaster Management’ in Govt. Middle School Kotha Bhour on 21-12-24. Five students along with two teachers (Mr. Ashish and Ms. Taruna) visited the school. The session was led by students of Interact Club Jasmine, Naitik, Bhargav, Hannah and Ridhima. They presented information on different natural and man-made disasters and what precautions and management techniques should be used in the occurrence of any disaster. This awareness session proved to be a valuable learning experience for students of both the schools. It not only empowered students but also encouraged them to seek help when needed. This collaborative effort under ‘Community Service Outreach Program’ aligns perfectly with the Interact Club’s mission to create a more supportive environment and preparedness of the community in dealing and managing the natural and man-made disasters.
